### **Six stages for success**

In past 50 years the great success attained by organization can be divided into six stages.

#### **First phase - One family (Household)**

##### **Spiritual gathering (1936 – 37)**

The inception of this organization began from a small gathering at Dada Lekhraj’s home. Dada was a well-known diamond merchant. Because of his honesty and noble character he had freedom to visit many king’s palaces. Specially, he had a close relationships with the kings in Nepal and Udaipur. He was a keen devotee of Narayan.

He was generous hearted and a great donor from his childhood. As he grew older, his interest in Shrimat Bhagvad Gita and other spiritual texts

also grew. He would lead his day to day life with spiritual teachings and would consume satvik food. He would pay great attention towards his spiritual growth. Having these disciplines in his life, he started becoming introvert and would introspect.

At last that time came, when he realized the Truth. **In 1936, he was around 50 years of age when he had many divine visions.** In that, he saw that by the end of next 100 years, Golden Age will be established and prior to that there will be a great destruction of this tamopradhan iron aged world. With this the present condition of the society will be finished which is presently hollow and corrupt, its roots are infected with termites and it is impossible for these rotten roots to survive. Dada also saw the divine light of God and internally he heard that, the vision of that divine light itself is the Ocean of Bliss, “Point of light, Supreme Father Shiva”. He had other divine visions too. Actually, this was an overarching incident which turned his life. There was a great spiritual transformation in Dada’s life with these and this had an impact on his relatives and contacts. Because they would see clearly sheen in his face, glow in his eyes and aura of purity on his forehead.
